

Material 166: High Gloss White Paper Label for Cover-Up Labels

Facestock:

Description: White, glossy paper label uniquely receptive to Kiaro! inkjet label printing is ideal for printing full-color, photographic images on primary display labels that cover over other labels or printed surfaces beneath.

Thickness:

4.9 Mil (104 Microns)

Gloss: 80%

Brightness: 93

Adhesive:

Description: This general-purpose, permanent adhesive is black in color and provides an opaque layer which blocks visibility of the surface beneath. It is solvent-free and adheres well to a wide variety of substrates.

- Type: Permanent acrylic adhesive (solvent free)
- Thickness: .08 Mils (20 Microns)

Liner:

Description: White release liner, siliconized on one side.

Caliper: 2.16 Mils \pm 10% (55 Microns)

Tensile:

MD: 5.0 kN/m

CD: 2.3 kN/m

Tear:

MD: \geq 240 mN

CD: \geq 260 mN

Total Construction Caliper: 6.33 Mil (160.78 Microns)

Minimum Application Temperature: 23° F (-5° C)

Service Temperature Range: -40° F to +176° F (-40° C to 80° C)

Storage Considerations:

QuickLabel warrants that this label/tag product retains its performance properties for one year from the date of purchase if properly stored at room conditions between 64-84°F(18-29°C) and 30-70% relative humidity. Do not store in direct

sunlight. Do not remove protective packaging until product is to be used.

Recommended Applications: Material# 166 is ideal for printing glossy paper labels using the Kiaro! inkjet label printer, especially when there is a need to cover-up the surface beneath. Material #166 is ideal for re-labeling over a previously printed label.
