Thickness: 3.10 mil

Adhesive:

Description: High performance Emulsion acrylic with high initial tack and ultimate adhesion. Very good heat resistance.

- Type: Emulsion acrylic.

Liner:

Description: 40# White craft liner.

Caliper: 2.40 mil

Total Construction Caliper: 6.0 mil

Minimum Application Temperature: 23 °F

Service Temperature Range: -20 °F to 212 °F

Storage Considerations:

QuickLabel warrants that this label/tag product retains its performance properties for one year from the date of purchase if properly stored at room conditions between 64-72°F and 30-60% relative humidity. Do not store in direct sunlight. Do not remove protective packaging until product is to be used.

Recommended Applications:

Material# 245 can be used in both water based dye and pigment inkjet label printers. Ideal for premium prime labeling applications where high gloss and vivid color is paramount.
